Objective

Utilize skills, knowledge, and education in a challenging data analyst position

Summary of Qualifications

- Excellent collaborator
- Personnel coaching and management
- Computer experience: Microsoft Office programs (Excel), QuickBooks, MySQL, Tableau (beginner), Python (junior) , Cloud database management (junior)
- Focus on data accuracy
- Strong written and verbal communication skills
- Database design, development, and management (junior)

Education

- Current: Data Science Certificate from University of North Alabama, CIS 225 Intro to Object Oriented Programming (python) “A”,
- Current class, CIS 366 Database Development and Management
- B.S. in Organizational Management (Business), December 2008 from Tusculum College, TN
- A.S in Business, December 2006 from Walters State Community College, TN “Cum Laude”

Experience

Executive Board of NASOA AHSAA Assigning Officer, AL 2024, Executive Board of SASOA AHSAA Assigning Officer, AL 2016

- Ensure over 62 schools with as many as 4 programs each have their soccer matches assigned referees
- Manage scheduling for over 106 soccer referees by analyzing resources available, game count (by school), match difficulty, match priority, referee ability, and overall referee game load (minimize burnout and injury)
- Plan and present training at association meetings based on a planned curriculum or identified gaps in skills or training
- Provide mentoring and coaching to referees to help referees develop and reach their goals
- Pair referees with mentors and ensure referees in need of coaching have access to on-field observations (requires scheduling referee to a game that is a sufficient test and scheduling a ref coach)
- Assign referees to matches prioritizing matches by difficulty and matching crew members to each position
- Use Excel to calculate referee payment using algorithms.
- Analyze end of year data to identify assigning trends to guide assignments for the coming season
- Collaborate with board members on projects and association planning (ie recruitment campaign for summer and fall 2024)
- Ensure executive board(s) has zero single points of failure
- Ensure all game, referee-to-game, referee-pay, and school invoicing data is accurate, backed up and secure

Hobbies

- Grand strategy video games, inventory management and optimization games (Civ 3&4, Warhammer 2, etc)
- Middle distance running (13.1 miles) with full marathon aspirations
- Lifelong learning: typically science based topics, or other languages
- Fostering dogs for various dog rescues, but mainly bassets and beagles
